

Now Spring is Here

Springtime, is laugh and sing time,
It's joining in time, let's give a cheer!
Join hands, and have a fun time,
Enjoy the sunshine, now spring is here.

*Wake up, the sun is shining,
The Earth is smiling, the air is clear.
Blue skies are up above me,
It's really lovely, this time of year.*

Listen, the birds are singing,
A new beginning is in the air.
Shake off, that winter feeling,
And go free-wheeling, now spring is here.

Wake up, the sun is shining ...

Over, the pretty meadows,
The green and yellows are everywhere.
Flowers, of every colour,
Can be discovered, now spring is here.

Wake up, the sun is shining ...

Back to top – first verse again.

Now spring is here. – sing three times.
