

Understanding the Difference Between Three & Four Time lesson 4 – page 1/2

1. Which instrument opened the video?

- A flute
- A clarinet
- An oboe

2. What is the pulse? *Please circle correct answer*

- The heartbeat of the music
- The pattern of the sound
- The speed of the music

3. What equipment did we need to perform both 'Chumbara' and 'Oi Dana'?

Please circle correct answer

- A drum
- Two plastic cups
- A didgeridoo

4. What does 'Chumbara' mean? *Please circle correct answer*

- Good morning
- We love music
- Nothing – it is nonsense

5. Where does the song 'Oi Dana' come from? *Please circle correct answer*

- Sweden
- Poland
- Australia

6. What is an ostinato? *Please circle correct answer*

- A song
- A scale
- A repeated musical pattern

7. How did the cup pattern vary between Oi Dana and Chumbara? *Please circle correct answer*

- We swapped the cups from hand to hand in one song, and kept them in the same hand in the other
- There were fewer cup beats in the Oi Dana pattern than there were in the Chumbara pattern

8. How did the metre differ between Chumbara and Oi Dana? *Please circle correct answer*

- Oi Dana was in 8 time, and Chumbara was in 2 time
- Chumbara was in 4 time (it had four beats), and Oi Dana was in 3 time It had three beats)
- It didn't say – they shared the same metre

9. What is rhythm? *Please circle correct answer*

- The pattern of sounds
- The heartbeat of the music
- The speed of the music

10. What is metre? *Please circle correct answer*

- The length of a piece of sheet music (in cm)
- The pattern of sounds
- The grouping of pulse into strong and weak beats (defined by time signature)
