Song for Every Day

Songs for every day, help you on your way,
Put the colours back where things are grey.
When you're stuck for words, don't know what to say,
You can sing a song for every day.

There's a song (so sing it!), any time (no limit),
There's a song for each and every day.
There's a song (so sing it!), anywhere (just bring it),
Help to make the world a brighter place.

When the sun is up, and the day is new,
When you hear the cock-a-doodle-doo.
If you're feeling down, when there's lots to do,
You can find a song to see you through.

There's a song (so sing it!), any time (no limit) ...

When you're on your own, nothing on your mind,
Sing a simple song to pass the time.
You will be amazed, how the minutes fly,
With a little melody and rhyme.

There's a song (so sing it!), any time (no limit) ...

When you're on the move, walking down the street,
When you feel a rhythm in your feet.
Find yourself a tune, get yourself a beat,
Choose the words to make your song complete.

There's a song (so sing it!), any time (no limit),
There's a song for each and every day.
There's a song (so sing it!), anywhere (just bring it),
Help to make the world a brighter place.

Sing a song for every day.
